**Negations**

Negations are dead easy in Spanish.

Just put no before the verb

E.G

I want            = quiero  
I don't want    = no quiero

I need            = necesito  
I don't need    = no necesito

That's how easy it is to make negations in Spanish.

That's it for today.

Tomorrow we will add some Mortar to the Brick Verbs and Synergy Verbs. Mortar words, hold the Spanish together. They allow you to say more with your sentences.

Do you see how you can say a lot with just a few words? Soon you'll have a lot greater expressiveness. In fact we have 24 more lessons. So you have a long way to go and a lot more Spanish soon will be yours.

You will learn 24 times more. But your ability to express yourself in Spanish will be thousands of times more.

How is that possible?

Well each time you learn more of these essential words and structures you have more ability to make compound sentences. It is an exponential growth.

If you are unfamiliar with exponential growth this is how it works

Additional growth  $6+6+6+6 = 24$   
Exponential growth  $6 \times 6 \times 6 \times 6 = 1296$

Sorry, no more math I promise.

The point is for you to learn not to just add more words to your Spanish, but to learn to multiply your Spanish. That way you can take a little Spanish and communicate a lot.

Until tomorrow my friend

Hasta mañana amigo.
